International Journal on Sciences and Techniques of Automatic control & computer engineering – IJ-STA

Description

The objective of the international journal on Sciences and Techniques of Automatic control and computer engineering (IJ-STA) is to publish original papers of permanent reference value in all fields of electrical, computer engineering and systems. This journal selects, for publication, the best papers presented at the international conference on Sciences and Techniques of Automatic control and computer engineering. (STA). The international journal IJ-STA covers strongly related research areas Sciences, Techniques of Automatic control, and computer engineering systems. The backgrounds of the subscribers to the international journal IJ-STA are diversified and include industrial processes (thermal, hydraulics, biotechnical etc.), irrigation systems, greenhouses, mobile robots, articulated mechanical systems, biotechnology, aerospace, aeronautic, control engineering, etc. The international journal IJ-STA provides then a very strong synergy effect throughout the interdisciplinary research and varied application areas.

Scope of the journal

The international journal IJ-STA publishes papers on theoretical analysis, experimental studies and applications in the field of automatic control and computer engineering. The Topics of interest include, but are not limited to:

Adaptive control	Estimation and prediction	Neural networks
Agricultural processes	Evolutionary computation	Networked systems
Artificial vision	Fault diagnosis systems	Non-linear systems
Automotive control	Fault-tolerant systems	Optimal control
Biomedical control systems	Fuzzy systems	Power systems control
Biotechnological processes	Hybrid systems	Process control
Communication systems	Image processing	Predictive control
Control architectures	Industrial automation	Real-time control
Digital and analogue control	Industrial networking	Robotics
Discrete-event systems	Intelligent control systems	Robust control
Distributed systems	Large-scale systems	Sensors and actuators
Decentralized control	Manufacturing systems	Signal processing
Education and training	Measurement engineering	Smart structures control
Electrical machines	Mechatronics	Stochastic systems
Electrical networks	Modeling and simulation	Supervision systems
Embedded systems	Multivariable systems	System identification

Information for authors

The international journal IJ-STA offers an opportunity to contributors to publish their original research papers and review articles that detail the most important and the most recent technological advances of electrical areas, computer engineering and systems, as well as related disciplines. The editors invite academics, scientists and industrials to submit original papers by e-mail to the publishing editors, while respecting the guidelines for authors (http://www.sta-tn.com/sta-english.htm).

The scientific committee of the international conference STA selects the to-be-published papers among the best presented papers of this conference in all fields. Notified authors who accept to publish their works in the international journal IJ-STA will be requested to send an extended version of their papers to the publishing editors. Only the reviewed and accepted papers by the Editorial Board of international journal IJ-STA will be published.

It is to note that the manuscript must be limited to 15 pages (including figures and appendices), in the format of the international conference STA. Authors of accepted manuscripts are requested to send a short biography (less than 150 words) and a photograph (jpeg format).

Copyright notice

Copyright of accepted articles for publication in the international journal IJ-STA is available on the website (http://www.sta-tn.com), to ensure both the widest dissemination and protection of material published in this journal. Authors are asked to assign world-wide copyright in both print and other media in their papers, including abstracts, to the international journal IJ-STA. This enables us to guarantee copyright protection against infringement, and to disseminate your article, and our journal, as widely as possible.

A copyright transfer must be filled and signed by the authors and sent back to the publishing editors. A scanned copy of the signed format may be accepted by e-mail.

Subscription information

If you wish to subscribe to our international journal IJ-STA, please fill in and send us the order form together with due payment (**www.sta-tn.com**):
